Funktionale Programmierung Polygon Drawing

Thomas Pleiner • Patrick Pachinger

Reflection on baseline

- Identification of used functional features (if any)
- What was hard?
- What could be improved?

Reflection on the purely functional approach

- Identification of used functional features
- What was hard?
- What could be improved?

Reflection on the approaches in comparison

From a SE point of view, how do the approaches compare in terms of

- extensibility
- testability
- maintainability
- complexity

(one sentence/argument per characteristic)
